Financial Performance Trend

CAC by Month

Revenue per Customer by Month

Cost Breakdown

KEY INSIGHTS

- **Q4 contributed disproportionately** to annual profit growth
- Customer acquisition became cheaper while customer volume scaled
- **Revenue growth outpaced cost growth** across most months
- Revenue softened despite **rising overall sales volume**

RECOMMENDED ACTIONS

- **Double down** on top-performing **sales channels** in Q4
- Improve customer monetization through premium offerings
- Shift spend toward **lower-CAC acquisition campaigns**
- **Control variable cost** expansion as scale increases

Sales Channel Contribution
